

FLARE WALL WASH

MR-16 GX10-CMH Trim

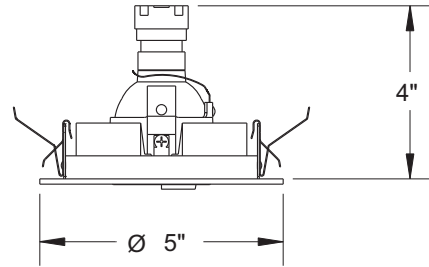

SPECIFICATIONS

The die cast aluminum Flare Wall Wash trim is designed with a strategically placed reflector and lens that optimizes uniform vertical illumination. It is ideal for wall wash or grazing applications.

- 2" trim aperture
- Black center offers excellent glare control
- Ideal spacing is approximately 2 1/2 feet on center with a 2-foot setback.
- Lamp holder accepts up to 1 lens accessory
- Designed for 20W and 39W Ceramic Metal Halide MR16 GX10 lamps (constant color CMH technology)

- See Low Voltage Trim Spec Sheet for Low Voltage options.

Application: Ideal for washing walls retail spaces, museums or any commercial application.
