

## THE WEDGE

(GY6.35 Bi - Pin Halogen or Xenon)

2-330 Style  
Wedge I

2-340 Style  
Wedge II

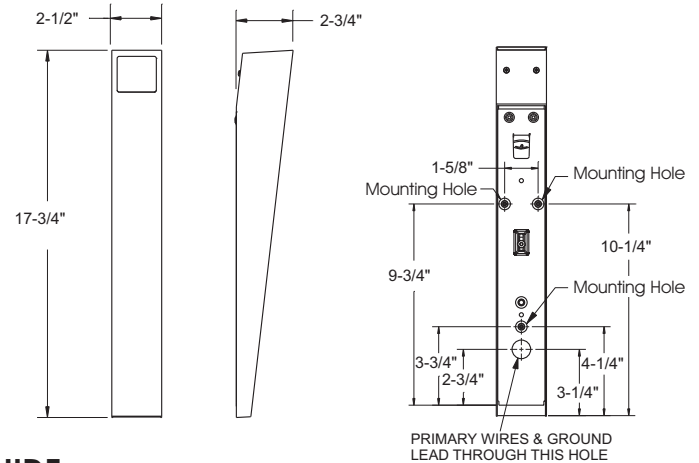

### SPECIFICATIONS

The Wedge is an extruded aluminum wall sconce designed for halogen or xenon lamps. Its slender architectural look is ideal for lobbies, hallways, or doorways.

- Extruded aluminum body
- 35W maximum, using a GY6.35 Bi-Pin Halogen or Xenon lamp
- Powered by an integral, high quality electronic transformer
- Approved for indoor or damp locations only
- Frosted glass lenses are standard, color dichroic lenses are optional (consult factory)
- Fully dimmable

**Note:**

Junction box is integral to the luminaire; no additional junction box is required for mounting of the fixture.
