

THE WEDGE SSL

5 Watts LED

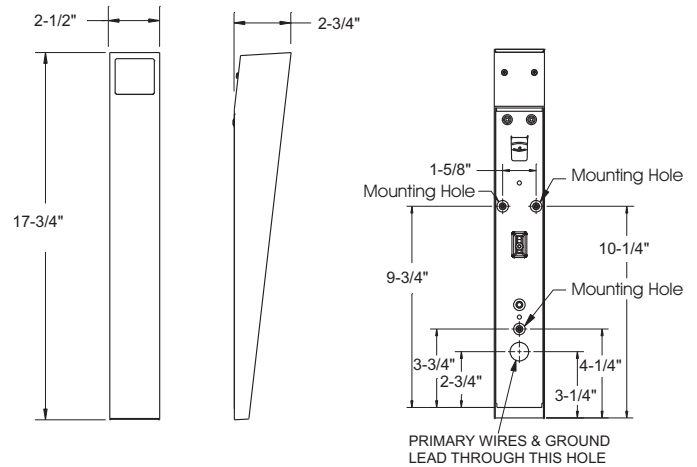

SPECIFICATIONS

The Wedge SSL is an extruded aluminum wall sconce designed with an integral 5W LED module. Its slender architectural look is ideal for lobbies, hallways, or doorways.

- Engineered with the latest generation LED technology.
- 320 lumens while consuming fewer than 4.5 watts of energy at 3000K.
- Other LED color temperatures are available, please contact factory.
- Approved for indoor or damp locations only.
- Frosted glass lenses are standard, color dichroic lenses are optional (consult factory)
- Fully dimmable. Can be dimmed using any 3-wire reverse phase electronic dimmer.

note: Junction box is integral to luminaire; no additional junction box is required for mounting of the fixture.
